

The threat

Countless toxins, pollutants, sources of ionizing radiation, and other health threats in our environments stress our bodies every day, in addition to individual factors like stress, lack of sleep, loss of energy, mental, physical and emotional fatigue, poor nutrition and much more. All of these contribute to early signs of aging, significant increases in oxidative stress, and inflammation in the body, eventually leading to a compromised immune system and serious health consequences.

The defense

Fortunately, the U.S. Department of Defense (DOD) partnered with Premier Micronutrient Corporation (PMC), one of the world's leading experts on antioxidant micronutrition, to solve this problem.

After an investment of \$22.5 million dollars and years of research, a solution was found – a “smart pill” called Military Micronutrient Formulation or MMF.

If you would like to learn more about MMF please contact me.

Usage and Warnings

Maximize Effectiveness

MMF was designed to fortify your body daily. To ensure maximum absorption and benefit from the patent-protected combination of micronutrients, it is recommended that two capsules of MMF be taken twice daily roughly 12 hours apart.

Warnings

If you are under the care of a physician or if you are take prescription medications regularly, please consult your physician before using MMF. Pregnant or lactating women should consult their physician prior to using MMF. If any adverse side effects occur, please stop usage immediately and consult your physician.

OUR HEALTH IS UNDER CONSTANT ATTACK

The defense
is MMF

What is MMF?

MMF is a body-defense nutraceutical that was designed to work intelligently with the needs of your individual immune system. MMF leverages the power of a patent-protected antioxidant micronutrient formula to specifically support biologic processes that reduce oxidative stress, reduce inflammation, and repair and protect DNA.

MMF was originally developed for military use, not the consumer market. It is now available to you exclusively through Engage Global. MMF has been proven in clinical trials, in a lab, and in life. Now everyone can experience a higher quality of life through this exclusive scientific breakthrough.

The MMF Advantage

SCIENCE – The antioxidant micronutrient science behind MMF has been proven in 14 clinical trials and seven patents that clearly show the efficacy of MMF. MMF was based around a scientific breakthrough called The CQF Standard – Combination, Quantity and Form. By having the right combination of antioxidant micronutrients in the proper quantities using the specific natural biologic iso-forms, MMF unlocks the body's full potential by maximizing absorption and delivering maximum results.

SMART PILL – The unique CQF approach delivers a smart pill that starts with absorption and ultimately provides protection for the fragile double strand cornerstone of human life known as DNA. By effectively delivering what your

body needs MMF supports the proper function of the immune system on both the intra- and inter-cellular levels, making a difference you can feel.

EXCLUSIVITY – This patent-protected formulation is only available through Engage Global.

The Benefits

MMF was designed to work for the military in the most dangerous and demanding environments on the planet. The fact that it works for them ensures that it will work for you in everyday life. So give MMF a try and experience the difference yourself.
