# #allofit

## Our very own unicorn

---

Nobody truly exemplifies #allofit quite like our good doctor Chief Science Officer and product formulator. Dr. Kedar Prasad Ph.D., has spent his entire career looking for ways to protect our bodies from the damage caused by inflammation and oxidative stress. These two issues can have devastating results if not actively fought. When injury occurs, they are given even more power and can speed the process of breaking down cells and making the practice of repair and healing much more difficult.
